Summary

As a highly experienced web developer, I have built over 220 websites and worked on 47 long-term (5+ years) projects. In addition, I have led 40+ web projects and collaborated with 16 IT teams on 60+ large projects. My expertise in website development and project leadership is complemented by my strong work ethic, reliability, and excellent interpersonal skills.

My passion for delivering great results and coming up with innovative solutions to IT-related problems has fueled my success in this field. I pride myself on being industrious, diligent, and forward-thinking, consistently seeking out new ways to improve my work and the work of those around me.

I am a consummate professional who takes great care to ensure the highest standards of quality and accuracy in all of my work. I am committed to working closely with my colleagues and clients to understand their needs and requirements, and to deliver exceptional results that meet or exceed their expectations.

Overall, my extensive experience, strong work ethic, and ability to work collaboratively and effectively make me a highly qualified candidate in the field of web development.

Experience

🤝 Full Stack Engineer

Self Employed

Jan 2023 - Present (2 months)
- Developed and maintained multiple Shopify e-commerce stores, including custom app integrations and theme modifications to enhance functionality and user experience.
- Utilized PHP, Laravel, React.js, Node.js, MySQL, and other technologies to build custom web applications from scratch, ensuring high performance, scalability, and security.
- Demonstrated expertise in systems design, continuous integration and continuous delivery (CI/CD), and agile methodologies to deliver complex and sophisticated projects that met clients' needs and requirements.

Senior Web Developer

MachuPicchu.Center

Mar 2022 - Dec 2023 (1 year 10 months)
- Contributed to the development of a cutting-edge website using PHP, ensuring that it was responsive and user-friendly for all visitors.
- Successfully integrated Restful API into the website, optimizing its functionality and improving user experience.
- Utilized advanced web crawler technology to gather critical data and insights, allowing for more informed decision-making and strategic planning.

- Demonstrated a deep understanding of web development best practices, staying up-to-date with the latest trends and technologies to continually improve performance and deliver exceptional results.

Web developer
Upwork
Jul 2019 - Feb 2022 (2 years 8 months)
- Developed a solid reputation as a reliable and skilled software engineer, known for delivering high-quality results and building custom applications that exceeded clients' expectations.
- Leveraged expertise in Shopify, ElectronJS, Laravel, WordPress to build custom solutions that met clients' needs and requirements.
- Contributed to every aspect of the development process, from design and coding to testing and deployment.

Web Developer
Jonroc Web Design & Digital Marketing
Oct 2015 - Apr 2019 (3 years 7 months)
- Implemented a comprehensive Computerized Maintenance Management System (CMMS) to streamline clients' maintenance operations and improve efficiency.
- Maintained and updated client websites on an ongoing basis, ensuring they were always up-to-date and functioning optimally.
- Demonstrated expertise in a broad range of workflow tools, including Shopify, WordPress, HTML, HTML5, CSS3, Bootstrap, Drupal, JavaScript, MongoDB, Mysql, Adobe Photoshop, CRM, and Git, to deliver innovative and high-quality solutions that exceeded clients' expectations.

Education

National University of Singapore
Bachelor's degree, Computer Science
2011 - 2015
- During my university studies, my favorite subjects were computer-related, and I developed a particular interest in the latest technological advancements.
- My interest in web development began during this time, which eventually led to my career as a software engineer.
